

LISA and GI Norden conference 2017

Call for abstracts

Environmental risk assessment; Climate changes; Environmental policy; Security and public safety

LISA organisation of GI in Iceland and GI Norden are organising a conference in Iceland 12th of October 2017.

The objective of the conference is knowledge sharing/best practices on emergencies and to encourage the exchange of experience and information on successful examples of management and assessment of hazard, risk and climate changes.

The main focus of the conference will be Environmental Risk Assessment; Flooding, monitoring and analysis; Climate Change; Environmental policy; Security and Public Safety; Spatial Data Infrastructure; New devices in mapping and monitoring: Smart mapping.

The Conference Committee welcome users and researchers in the GI Sector to send in Proposals for Papers for the Conference.

Conference main topics can be within these subjects:

- Land Use, Environmental risk assessment and management
- Arctic Climate changes assessment and monitoring
- Hazard prevention, management and control
- Security and public safety
- Policy, planning and management
- Spatial data infrastructure and Network systems
- Geomorphological risk
- Risk perception
- Early warning systems and Estimation of risk
- Education and awareness
- New devices in mapping and monitoring: Smart mapping
- Geostatistics

The Conference will take place in Reykjavik on the 12th of October at Grand Hotel Reykjavik.
